garbage 生ごみ	 • Please drain off water well ! • Please put the drainer nets in a garbage bag (yellow) to be able to burn • Please see an attached sheet, a garbage chart !	 生ごみ (レッド) Town's specified garbage bag only. (Red)
Burnable garbage 燃やせるごみ	 ★Notes 1. Crush big nonrigid plastics within 30cm. 2. Put out the trees, branches and boards within 30cm in length, 5cm in thickness. We hope that these materials can be composted. 3. Do not throw away dirty diapers. You must remove the contents first. 4. Use up all of the gunpowder from things such as matches and fireworks. 5. Cut open plastic bags and containers (such as soap and detergent) and use all of the contents before disposal. 6. In the case of very moist garbage, drain the water and wrap it in newspaper before disposal to prevent leaking. 7. Styrofoam and styrofoam trays are now included with "Burnable garbage". 8. Do not put steel with "Burnable garbage".	 燃やせるごみ (イエロー) Town's specified garbage bag only. (Yellow)
Non burnable garbage 燃やせないごみ	 ★Notes 1. Wrap cutlery and broken ceramics in paper or cloth so they will not be dangerous. 2. Completely empty all spray or gas from cans and cylinders, and then puncture them.	 燃やせないごみ (クリア) Town's specified garbage bag only. (Transparent)
Newspaper・Magazine 新聞紙・雑誌 Corrugated Cardboard 段ボール Paper carton 紙パック	 ★Notes 1. Cross-bind newspapers, magazines, corrugated cardboard and paper cartons separately. 2. Before binding paper cartons, remove the pouring attachments, wash the inside of the cartons, open and dry them. 3. Place paper cartons with aluminium coating with "Burnable garbage."	Please cross-bind separately and put it out.
Fluorescent lamp and light bulb 蛍光灯等	 ★Notes Exhaust the light completely and be careful not to break it. (Put lights back into their original packaging before disposal.)	 clear bag
Batteries 電池	 ★Notes Include only these types of batteries.	 clear bag

Bulky garbage item 粗大ごみ	 ★Notes 1. Take inner-spring mattresses and sofas apart, separating the springs from the other materials. 2. Take sinks apart and separate the metal from the ceramics. 3. Exclude batteries and fluorescent lamps. 4. Completely extract all fuel from fuel drums, fans, heaters and stoves before disposal. 5. Stack all carpets, tin plates and corrugated sheets into bundles within 1m wide and 2m in length. 6. Logs and rectangular lumber are treatable if within 2m in length and 10cm in diameter. 7. Futons and Japanese tatami mats, within ten pieces, can be taken directly to the amenity park. 8. Steel pipes within 2.5cm in diameter are disposable. 9. Steel goods within 1cm in thickness are disposable. 10. In the case of muddy and moist clothes or carpets, clean and dry them.	Please take directly to the Okutone Amenity Park. If you are unable to take it to the amenity park, contact the nearest authorized trader for pickup.
